

International Academy of Electrochemical Energy Science

SPONSORSHIP OPPORTUNITY

(Contact Joey Jung at joey.jung@iaoees.org)

1. Introduction

International Academy of Electrochemical Energy Science (IAOEES) would like to invite you to sponsor the academy.

IAOEES, founded in 2013, is a non-profit international academy organization registered and governed by Canada Government's Laws. With the vision to encourage global research and partnerships in the field of electrochemical energy science and technology, specifically in the areas of energy conversion and storage; IAOEES promotes both the academic and technical exchange among members through journal publications, seminars, science and technology trainings, international conferences, and student fellowship support. In doing so, we are committed to reducing emissions of CO₂/NO_x/SO_x and VOCs and thereby helping make major contributions to the creation of a clean energy powered, pollution free and sustainable living world.

Through IAOEES's Website, Active Members, and the Annual Electrochemical Energy Science and Technology Conference, scientists and entrepreneurs around the world join together with a common interest in meeting the rising global energy and environment challenges.

We believe IAOEES can provide an excellent opportunity for your company to gain valuable exposure to several hundred of the world's brightest researchers in the areas of electrochemical energy conversion and storage. Governing by Canadian Federal Government, your sponsorship will enable IAOEES to further develop the established network, unite researchers and scientists within the community, cover the routing administration/operation expenses, and award the necessary travel/accommodation expenses for promoting electrochemical energy globally.

More detailed information concerning IAOEES and EEST 2016 can be found on the internet at www.iaoees.org.
